

Dear Users,

In an age where information and knowledge are rapidly accumulated and disseminated, CNKI has always been committed to providing you with high-quality and convenient academic resources and services. To enhance your user experience, we have undertaken a **redesign and upgrade** of the [CNKI Overseas homepage](https://oversea.cnki.net). The new version is now officially launched, and we cordially invite you to try it out (<https://oversea.cnki.net/new>). The original homepage (<https://oversea.cnki.net>) will switch to the new version around September 30. We believe this refreshed homepage will better support your academic exploration!

In this new version, the following key aspects have been optimized:

Upgraded Product and User Service Systems

The new homepage presents CNKI's diversified products and services in a clear, systematic and comprehensive manner through the two core sections of "**Products & Solutions**" and "**Services**". At the same time, it provides various kinds of convenient services to readers and librarians, and supports readers' academic research from different angles.

·**Product & Service Introduction:** It systematically presents our four key business areas: Digital Resources, Digital Services, Publishing Services, and Distribution Partnership. This enables you to quickly find and understand the products and services that best meet your needs.

- Online Access to the Collection List:** With a simple click, you can request our collection list, allowing you to easily find out more about our products and customized solutions.
- Product Training Videos:** We offer a comprehensive series of product training videos that showcase the value of our databases and visually demonstrate how to use them, enabling you to get the most out of our products.
- FAQs:** We select the most frequently asked questions by users and provide professional and detailed answers from different perspectives for readers, librarians, authors, and partners to help resolve your usage concerns and improve your learning and work efficiency.
- Librarian Support Services:** We have launched a new Academic Training services page to meet the needs of libraries for customized training. We have also optimized the instructions and updated the process for accessing proxy stanza, making it easier for users to access our services from off-campus locations.

Optimized Page Browsing Experience

The new version has been extensively optimized in both visual and user experience.

- Enhanced Page Load Speed:** By optimizing the platform structure and the resource loading, we have reduced page load time, providing a smoother and more enjoyable experience for users.
- Improved Navigation and Layout:** We have redesigned the navigation structure and page layout to help users to quickly find the information and functions they need, making it easier and more efficient to use.

Enhanced Website Accessibility

The new version also actively improves accessibility for a wider audience.

- Supporting Barrier-Free Access:** The new homepage conforms to the World Wide Web Consortium's Web Content Accessibility Guidelines (WCAG) 2.0 Level AA, providing seamless access to academic information for a wide range of users.
- Multilingual Plan:** In addition to our existing Simplified Chinese, Traditional Chinese, and English versions, we plan to launch versions in Japanese, Korean, Russian, and other languages, enabling global scholars to overcome language barriers and easily access CNKI's resources.

We sincerely invite you to visit our upgraded [CNKI Overseas homepage](#) and experience these improvements for yourself. CNKI keeps committed to bridging the gap in global academic

exchange. Your satisfaction and support keep us moving forward.

If you have any questions or suggestions,
